Work Experience

Frontend Developer | Factiify | Gurugram   **Sep 2024 – Present**

- Developed a fintech web application using React, Next.js, and Tailwind CSS with a focus on responsive, user-friendly UI design.
- Integrated APIs for real-time financial data and employed tools like useContext for effective global state management
- Implemented advanced libraries like AG Grid (data tables), ApexCharts (visualizations), and drag-and-drop elements to enhance interactivity.
- Optimized application performance and responsiveness through best coding practices.

Web Development | MyDailyWork | Remote   **July 2024 – Aug 2024**

- Built projects such as a portfolio website, calculator, online quiz maker, and e-commerce website using HTML, CSS, JavaScript, and React.js.
- Created responsive interfaces and interactive features to improve usability and engagement.
- Gained practical experience in frontend development and strengthened coding skills.
